3245 ACADEMIC ISSUES

Due to the fact that the motion put forward by Dr. Ross to revisit Item 3235 Motion #5 of the January 10, 2005 minutes was defeated and this item will not be on the agenda until brought forward as per the process identified in the bylaws in order to follow process, he requested assurance that courses being deleted from the calendar would not be put in jeopardy of transfer. He couched his comments that he would be guided by the Chair in regards to process. He specifically mentioned his concern that it would affect negotiations with UNBC. Mr. Hart informed Council of the process the college is following to ensure that there are no problems with the articulation agreement process with UNBC.

Dr. Campbell again requested assurance that courses being deleted from the calendar would not be put in jeopardy of losing transferability status. Lengthy discussion followed. Ms. Meyers noted that she had grave concerns that individuals are not being allowed to speak and requested this be noted in the minutes.

Ms. Thomson advised there were a number of items in the memo circulated by Dr. Ross that contained inaccuracies or were not relevant to the motion passed at the January 10th meeting. The list of transfer courses is an ever changing list. There is no program articulation in place with UNBC and courses would not be listed until due process was followed. She suggested Council ask that the Vice President Academic, ACE Chair, Director of Students, herself meet to discuss these concerns.

Dr. Deimert inquired as to what would be the status of the list of courses on the "to be deleted list" in the mean time until this item could be discussed at the March 10th meeting of Council. Mr. Brown suggested that a meeting to resolve this matter be held outside of Council. Ms. Thomson noted that she had made a request through the Academic Council Chair for the ACE Chair to discuss his

concerns on this matter; but this has not to date taken place. The Chair stated he felt that the Council was being used as a forum prematurely given the above.

Dr. Campbell requested the Chair call a meeting as expeditiously as possible of Mr. Hart, Ms. Thomson, Mr. Brown and Dr. McAlpine to discuss this matter. The Chair agreed to call this meeting and again restated the process to be followed to place an item on Council's agenda.

3246 OPEN DISCUSSION

Mr. Brown reported there was more participation from the community then ever before at the recent Career Fair and Open House. He thanked departments and students for their participation.

Mr. Henderson noted that Administration is still trying to interpret the Premier's announcement. The province will announce the budget in April. A speech from throne is scheduled around the end of February. He understood that in regards to the tuition freeze that all fees will be increased as per normal but the amount of increase for Canadian students will be paid by government for one year. The maximum tuition fee increase is \$280.00. Administration hopes to have more information before the February board meeting. This may impact the timing of finalization of our budget process.

Ms. Stephenson noted that the Student Association Council Executive will be changing to three positions next year from the current four.

Dr. Eiserman reminded Council of the governance role it plays. She cautioned that Council must be very careful to maintain process as it is a governing body of the College. The focus group by U of A Senate Task Force on Student Life occurs on March 2nd.

Mr. Hart reported that the president's address at the Chamber of Commerce today included an excerpt of annual report and the trends appearing. Mr. Henderson clarified that he said future collaboration is key to what we are going to do, GPRC is not pursuing being an university in the near future, and he emphasized being a community college is not second class. Mr. Hart thanked the College for putting learners first rather than mandate.

Ms. Skaley is looking forward to the Learning Centre Support Committee.

Dr. Ross questioned what the next capital project for GPRC would be if the province comes up with a lot of dollars. Mr. Henderson noted that the College needs to update the master plan for facilities in able to address this question.

3247 ADJOURNMENT

MOVED by Dr. Eiserman, seconded by Ms. Fisher, the meeting be adjourned.
